

# Third Annual National Latino AIDS Awareness Day

We are currently organizing our third National Latino AIDS Awareness Day which will take place on Saturday, October 15th 2005. This will be our national day of awareness and prevention against HIV/AIDS in the Latino Community.

We must join as a Latino family regardless of country of origin into a united voice for awareness and confronting the stigma associated with HIV/AIDS. We must demand access to care regardless of immigration status. We must not settle for waiting list or exclusion for access to life saving medical care.

October 15 is the one day we set aside to renew our commitment to ending the spread of HIV and ensuring quality of life to those with HIV regardless of their Spanish speaking country of origin or immigration status. We do so whether we are Latino, African, Asian, White or Native America.

#### Agradecimientos:

- ◆ Bailadores de Bronce.
- ◆ Alanessi Figueroa.
